## Additional New Market Access Benefits for Arizona

**Agriculture:** TPP will provide new and commercially meaningful market access for U.S. exports of food and agricultural products; eliminate the use of agricultural export subsidies; discourage countries from imposing export restrictions; and ensure food safety, animal health, and plant health measures are developed and implemented transparently and in a science-based manner.

## TPP Works for Arizona

### Saves Money, Increases Competitiveness

**Intellectual Property Rights:** Establishes strong protections for patents, trademarks, copyrights, and trade secrets, including safeguards against cyber-theft of trade secrets, as well as robust enforcement that will protect innovation and the good jobs it supports.

**Technical Barriers to Trade (TBT) and Regulatory Coherence:** Enhances transparency, reduces unnecessary testing and certification costs, and promotes greater openness as standards are developed. Establishes sector-specific TBT commitments on medical devices, pharmaceuticals, cosmetics, information and communication technologies, food and food additives, organics, and distilled spirits that strive to align standards and regulations across the TPP region.

**Customs and Rules of Origin:** Creates transparent and predictable rules to facilitate the quick release of goods and promote TPP regional supply chains. Promotes common rules of origin and customs procedures to ensure that TPP benefits go to the United States and other TPP countries, not countries like China.

**Government Procurement:** Increases access to government procurement markets in TPP countries and ensures fair, transparent, and non-discriminatory rules.

**Digital Economy:** Establishes requirements that support a single, global Internet, including ensuring a free flow of data across borders. Promotes non-discriminatory treatment of digital products transmitted electronically, including a commitment that TPP countries will not impose customs duties on digital products.

### Promotes Fairness & American Values

**Environment:** Creates strong and enforceable environment obligations and includes new provisions on wildlife trafficking, illegal logging, and illegal fishing practices.

**Labor:** Establishes enforceable obligations, including adherence to fundamental labor rights as recognized by the International Labor Organization.

**State-Owned Enterprises (SOEs):** Develops rules to ensure that U.S. private sector businesses and workers are able to compete on fair terms with SOEs engaged in commercial activity.

**Investment:** Ensures that U.S. investors have the same kinds of protections in TPP markets that the United States already provides to investors here at home.

**Enforcement:** Establishes fair and transparent dispute settlement mechanism that applies to all chapters and procedures to settle disputes in a timely manner.
